

**State of Kansas  
Department of Health  
and Environment**

**Notice of Public Hearing**

The Kansas Department of Health and Environment is proposing to revise the *State of Kansas Implementation Plan for the Attainment and Maintenance of National Ambient Air Quality Standards*. The hearing for this action will be held Tuesday, May 8, 2007, at 1:30PM, at the Unified Government of Wyandotte County – Kansas City, Kansas Health Department, located at 619 Ann Avenue, Kansas City, Kansas. The Kansas City Maintenance Area (KCMA) is designated as an attainment area for the 8-hour ozone standard and as a maintenance area under the previous one-hour ozone standard. Based on these designations, the KCMA is required to have a maintenance plan under section 110(a)(1) of the Clean Air Act (CAA) and the provisions of the U.S. Environmental Protection Agency (EPA)'s Phase 1 Implementation Rule for the 8-hour Ozone Standard (40 Code of Federal Regulations (CFR) Section 51.905(a)(3) and (4)). KDHE has prepared this maintenance plan to meet all of the requirements for the 8-hour ozone standard for its portion of the KCMA. The Kansas portion of the KCMA is based on designations determined under the previous one-hour standard, and is made up of Wyandotte and Johnson counties. The maintenance plan includes all of the components required under the CAA and EPA's Phase I Rule. This 8-hour ozone maintenance plan constitutes a revision to the State Implementation Plan and must provide for continued maintenance of the 8-hour ozone standard for a period of 10 years, ending in 2014. The plan must also provide contingency control measures to be implemented if a violation of the 8-hour ozone standard occurs.

This proposed SIP revision does not include any rulemaking action. Details concerning this revision can be obtained by contacting Douglas L. Watson, Kansas Department of Health and Environment, Bureau of Air and Radiation, at (785) 296-0910. Copies of the proposed Plan may also be viewed at the following locations: (1.) Johnson County Environmental Department, 11811 S Sunset Drive, Olathe, Kansas and (2.) Department of Air Quality, Unified Government of Wyandotte County - Kansas City, Kansas Health Department, 619 Ann Avenue, Kansas City, Kansas. The Plan is also posted on the Bureau of Air and Radiation's website at <http://www.kdheks.gov/bar/index.html>. Comments from the interested public should be addressed to the Kansas Department of Health and Environment, Bureau of Air and Radiation, Attention: Douglas L. Watson, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Comments must be received by the Bureau of Air and Radiation no later than 5:00p.m. on May 8, 2007 to assure full consideration of this proposed revision to the SIP.

Any individual with a disability may request accommodations in order to participate in the public hearing and may request the proposed plan in accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Douglas L. Watson, (785) 296-0910.

Roderick L. Bremby  
Secretary of Health and Environment
